Good Morning Julianne,

I thought I would let you know that we have submitted rules for our required 5 year rule review. I have attached all the rules and the link to our JACRR rule website..

These rules are in two categories....some with no changes at all and ones that have been amended that are required to filed differently. Even the ones that are amended are not changed much....most of the amendments were to fix things that were required by formatting changes or to update references.....we did add some items required on our Permits to Install, but did not change anything relating to NPDES requirements.

We are still progressing on the memorandums and our Attorney General Representative, Kelly McCloud, is reviewing and updating sections of the package as needed.

I hope everything is going well. Let me know how your efforts are proceeding.

Thanks,

Good Morning Gentlemen,

Below is the link where the rule changes can be found for review. If you require a hard copy of the rule changes I would be happy to supply it.

Kevin, have we sent the proposed rule changes to the US EPA for their comment?

As of this moment, ODA Legal has not received any public comment on the rule changes.

Let me know if there are any questions.

Sincerely,
